

Together for Health: A Collaborative Approach

Access to quality healthcare close to home is essential for everyone. **St Francis Memorial Hospital, Valley Manor, and Madawaska Valley Hospice Palliative Care** provide a range of inpatient, outpatient, long term, and end-of-life care.

The St Francis Valley Healthcare Foundation **serves as a bridge** between generous donors and these care providers, raising funds to support essential equipment, capital projects, services and programs. Together, we ensure care is available when and where it is needed most.

Why Your Gift Matters

Government funding alone **does not** fully cover the cost of delivering and maintaining local healthcare. Equipment wears out. Technologies evolve. Patient needs grow. Your support makes it possible to fund what matters most.

The difference local care makes

For **RN Tammy Dunne**, local healthcare is personal. Over her 38 years at St. Francis Memorial Hospital (SFMH), she has seen the impact of local care on patients and her own family.

From **Valley Manor and Madawaska Valley Hospice Palliative Care** to SFMH, Tammy knows these services matter.

“The government doesn’t cover all equipment and services,” she says. “Donations help staff do their job with more ease.”

Join Us

Give today to ensure that vital care is available when it’s needed most – for patients, residents, and families in our community.

**HELPING LOCAL
HEALTHCARE THRIVE NOW
AND FOR THE FUTURE**

Our Donors Impact

Thanks to the generosity of our donors, **more than \$5.7 million has been contributed over the past five years** to support critical healthcare initiatives. Some examples of the impact their support has made include:

An advanced mammography machine for St. Francis Memorial Hospital.

Enhanced volunteer training and bereavement support at Madawaska Valley Hospice Palliative Care.

A new oven range for the Valley Manor dietary department.

An incredible **\$3.1 Million** was raised for our Growing TogethER Emergency Department and Ambulatory Care Redevelopment Campaign! This represents our largest campaign to date.

Funding Priorities 2025 - 2028

Over the **next three years**, our healthcare partners require **approximately \$2.15 million** to address critical needs.

St. Francis Memorial Hospital - \$1.77 M

- Main X-ray \$415,000
- Automatic Dispensing Unit \$400,000
- Other essential equipment: tubs & lifts, patient beds, ECGs + \$395,000
- ✓ Mammography & Bone Density **\$448,000 Purchased!**
